CASH REGISTER INVENTOR DIES NEW JERSEY

Started Life as Farmhand Near Dayton, Ohio, Established Business on Same Land.

WAS REAL FINANCIAL GENIUS
John Henry Patterson Was the Head Great Industry That Made Many Wealthy.

(By Associated Press)
ATLANTIC CITY, May 8.—Arrangements were made today to take the body of John H. Patterson, head of the National Cash Register company, to his home in Dayton, Ohio. He died suddenly on a train last night.

John Henry Patterson, who started life as a farmhand near Dayton, O., and established the biggest business of its kind in the world on the land that he had plowed as a boy, retired as president of the National Cash Register company on July 16, 1921. Upon retirement he was elected chairman of the board of directors, an honorary position. At the time of retiring he was 77 years old, having been born on a farm December 13, 1844.

He did farm work, canal toll collecting, retailing of coal, mine operating, and finally "went west" to seek fortune as a ranch and orchard owner before he hit upon the central idea of his career—manufacturing and selling cash registers.

Mr. Patterson's mother, in telling of her son's life on the farm, said: "He used to be called at 4 o'clock in the spring, summer and fall. He had to make his grandfather's fire, carry up enough wood to last all day, split kindling and get it ready for the night. After breakfast he would turn the calves out, put up his dinner and go to school. In the evening it was necessary to drive up the calves, feed and bed them, carry up wood to fill the boxes and after supper to study his lessons."

Mr. Patterson studied two years at Miami university at Oxford, Ohio, and afterward at Dartmouth.

BRITISH EMBASSY IS ASKED FOR ASSISTANCE

(By Associated Press)
NEWARK, May 8.—A request that the British embassy send an agent to escort him from the station tomorrow, so he will not be molested, has been made by Alexander B. Robertson, British war veteran, who plans to go to Washington to press charges that private detectives attempted to railroad him out of this country because of his efforts to win the hand of Miss Mary Culbertson, daughter of Senator Culbertson of Texas.

NEW YORK, May 8.—Denial of any attempt being made to drive Robertson out of this country were made by the Burns Detective agency, which was retained to gather information about him.

WASHINGTON, May 8.—Senator Culbertson refused to see newspapermen to discuss the charges of Alexander Robertson, that private detectives sought to get him out of the country because of his affection for Miss Mary Culbertson, the senator's 21-year-old daughter.

SENATE FIGHT FREE CYANIDE HAS STARTED

Senator Oddie Is Leading Contest to Have This Material Placed on the Free List.

(By Associated Press)
WASHINGTON, May 8.—The first test of strength of the republican agricultural bloc will come up in the senate today on the issue whether cyanide is to remain on the free list. The finance committee has made this commodity dutiable in the chemical schedule now under consideration. Senator Oddie, of Nevada, is leading the bloc's fight for free cyanide, the only commodity on which the bloc has insisted on free trade. Debate on the cyanide schedule broke suddenly last week, with Senator Pittman launching a fight to place it on the free list.

PRESIDENT HARDING TRANSMITS REPORT AS SHOWING BILLION SIX HUNDRED MILLIONS WILL BE SAVED OVER THE PRECEDING FISCAL PERIOD DURING YEAR 1921

(By Associated Press)
WASHINGTON, May 8.—Government expenditures for the fiscal year 1922 will show a reduction of more than \$1,600,000,000 from the actual expenditures for the preceding fiscal year, 1921, congress was informed today by President Harding in transmitting the report of Director Dawes of the budget on economics and savings in governmental business.

Director Dawes estimated that government expenditures for the current fiscal year, which were given in the December budget estimates as \$3,967,922,366, will be at least \$45,550,336 less, or approximately \$3,922,372,030.

As compared with 1921, he continued, there has been a reduction of \$907,500,000 in expenditures for the operation of the routine business of the government subject generally to executive control. Of this sum he attributed \$250,000,000 to the imposition of the executive plan and pressure on the routine business organization of the government under the new system inaugurated by the budget bureau.

The report of Director Dawes was submitted to the house appropri-

ations committee by the president, in connection with a pending resolution by Representative Byrns, democrat, Tennessee, asking the president to inform the house in what ways direct savings of \$32,000,000 and indirect savings of \$104,000,000, previously announced by the president as accomplished by the budget bureau during its first six months of operation, had been made.

Director Dawes presented in detail with accompanying tables and statements the comparative expenditures for the past and present fiscal years divided into items representing those which were charged to executive control and others such as public debt and similar accounts which were considered as apart from the subject of routine government expenditure. He also submitted exhaustive reports of the government at savings accomplished through inter-departmental transfers of surplus supplies and other economy methods put into effect by the budget bureau, itemizing thousands of transactions involving ships, shoes, sealing wax and all the many articles and commodities utilized by the government together with the amount of saving realized in each case.

The budget director further reported that the savings reserve against current appropriations of \$112,000,000 set up by the department and establishments in August, 1921, in response to executive request, had been increased, notwithstanding reappropriations by congress of more than \$7,000,000 of this reserve for other purposes, to the approximate sum of \$136,000,000. Only such part of these reductions as are real savings and not postponed expenditures were included in the general estimate of savings he added.

As a still greater reduction, Director Dawes declared that the present estimated expenditures for 1922 for the operation of the routine business of the government, after eliminating expenditures of \$7,500,000 authorized by congress after the submission of the budget providing for representation of the United States at the Brazilian centennial exposition, seed loans, and fulfillment of the treaty with Colombia, as compared with the December budget estimates, showed an excess of only \$25,967,457 on a total of \$1,758,376,672 or a discrepancy of only about 1 1/2 per cent.

"SILVER" REYNOLDS ANSWERS LAST CALL

Charles "Silver" Reynolds, aged 70 years, one of the oldest residents of Tonopah and Manhattan, died this morning at the country hospital, following a long illness. Mr. Reynolds was admitted to the hospital on February 24, suffering from tuberculosis and bright's disease, and he gradually failed until death relieved his sufferings at 6 o'clock.

Charles Reynolds was born in Indiana, and when a young man engaged as a railroad. He migrated to Colorado and lived at Leadville for a number of years when that camp was in the heyday of its prosperity, later going to Denver, where he was a switchman in the depot yards of that city. Twenty years ago he came to Nevada, and almost immediately took up his residence in Tonopah, later going to Manhattan where he resided for a number of years before returning here where he remained until the time of his death.

No arrangements for the funeral have yet been made.

REED DISTRICT HUMMING ALONG WITH ACTIVITY

Eighteen Inches Ore Showing in Bottom of the Shaft Carrying 711 Ounces

As development continues on the Storm Cloud claim in the Reed district, five miles south of Golden Arrow, it becomes more evident that a mining property of merit has been discovered. At a depth of 20 feet a 5-foot vein of ore is showing in the shaft, while on the hanging-wall 18 inches in showing that returns assay values of 711 ounces silver a ton. The gold contents were not reported, but it is believed that they will be close to \$60 a ton.

Frank H. Taylor, W. A. Sanger and J. Grant Cranley were visitors to the property on Saturday and Sunday and they returned more than over convinced that the Storm Cloud will be developed into a big producing mine in due course of events. The whole country is being staked within a radius of four miles and the outlook is promising for a season of great activity which will result in a mining district of permanency being established.

On the Storm Cloud property every ounce of rock mined is being saved and it is claimed that the entire extraction is shipping ore. The walls are well defined and the geological conditions are almost identical with those of Tonopah.

James Shea, N. P. Nelson and J. on a lease on the Storm Cloud property, while O. K. Reed has work under way on two blocks of ground. Prospectors have invaded the field and there is an air of activity in evidence that has not been witnessed in any outside district in a long period with the possible exception of Royston.

MEXICO CALLED FOR GUARANTEES BY UNCLE SAM

No Recognition Unless Obregon Regime Complies With Demands of U. S. Country.

(By Associated Press)
WASHINGTON, May 8.—The American government is standing unalterably for guarantees requested of the Obregon regime in Mexico nearly a year ago, and so far Obregon advisers have given no definite assurances that guarantees will be given in order to make a formal recognition of their government possible, it was said at the state department today.

Many intimations that the Mexican authorities might be favorably disposed toward the American request, have reached the state department, but officials here will not be satisfied with anything less than a formal pledge by the Obregon government itself. It was said at the state department the situation remained just where it was when the terms of recognition were submitted to Mexico City in June, 1921.

DENOUNCE FRANCE, BELGIUM

Russians Call Attention to an Attempt of Those Countries to Break up Conference.

(By Associated Press)

GENOA, May 8.—Lloyd George and Premier Schanber, the latter of Italy, addressed a strong appeal today to the Russian representatives urging them to accept the allied memorandum in the main points, and promising Russia an international loan. It has been declared the Russians are asking three billion gold rubles, or 25 times the allies' offer.

The Russian delegation had previously issued a statement denouncing the efforts, it is alleged, of France and Belgium had made to wreck the conference. The statement called attention to the fact that these powers, which were predicting Russia's refusal to accept the memorandum, would break up the conference, and had not themselves signed the memorandum.
